10. What did you like most about the current project so far?

the workshops

New friends from other countries, special places of Croatia and a lot more things.

new friends,different countries,cultures

make friends,visiting different schools,towns

I like all this project.

I liked trips and events at school

vieta kur dzivojam kur braukajam cilveki.

Yes.

I liked that I got new friends and i know more about the other country cultures.

excursion

That We might go to other countries

Trips

I liked hanging out with different people from different countries. I also liked the activities in the school.

I think everything was fantastic and I can't enumerate only one thing.

All.

The best thing is communicating with new people and starting new friendships.

Visiting new countries and learning about new cultures.

Going to trips, visiting the school

I liked all

Everything

Meetings, trips

everything

11. What would you suggest in order to improve the project?

To make a longer visit time, because when you meet other people, you want to know about them a lot more and stay communicating with them.

Extra activities must be done all the time.

I suggest more activities.

neko mani vis apmirina

ilgaku laiku projekta braucienam

Yes.

The should be more activities where all countries have to separate from each other, so you can not be with your own country friends. This should improve knowledge about other country cultures and knowing more about other than being with your good known friends.

i do not know

Nothing

I think that there should've been more sight-seeing, for example everyone was hoping to go to the sea (because thats one of the best parts of croatia) but all we did was hang around the city, we didnt even go to the mountains or countryside.

I think, I would suggest more "big" trips for example to bigger cities.

More sports games.

Nothing, because it was good enough.

Project should be few days longer , maybe 10 days.

Nothing, everything was good

nothing
