What did you like most about the current project so far?

Very nice, fun, great, I love it

Cultural activities and trips.

The activities were interesting.

I mostly liked the people that I met.

I really enjoyed the activities and I learned a lot about Romania through this project. I made a lot of new friends and It was an experience I won't forget!

The people that were involved in this project and the activities.

Communicating with people and all things we did.

Well the new friends I found and the fun moments I had with them :) .

Friendship

In this project I'd like most to visit the salt mine. It's was very beautiful and interesting. It was new for me.

Having a chance to meet people from other European countries, their customs and traditions, participating in interesting and valuable trips, trying Romanian cuisine.

Possibility to communicate with other students and have fun together.

Visiting other countries.

The sights of the city from high locations and the kids I met.

What would you suggest in order to improve the project?

We were happy with the project so we would only suggest arranging the stay a bit longer. It would give us a chance to get known each other better and establish long-lasting friendship.

More projects like this! There were no problems with organisation and everybody was so nice

I don't know. More countries in the project than these ones. I think we can know for other cultures and people more than now!

Everything was nice

Get a more long-term project

For kids to have more free time

Not visiting so many churches in the cultural program.

More activities for teens.

More interesting activities at school.

Well it's good so far:

Everything was well thought and planned. I have nothing to suggest.
